

Vanity Sink Base Cabinet Assembly Manual

54" 60" 72" Vanity

Part A: Frame and Front Section Assembly

Step 1: Lay the main frame flat on the ground, ensuring all components are easily accessible.

Step 2:
the front
and install
decorative
drawer

Step 3:
the two side
to the frame.
the sides are
attach the
panel.

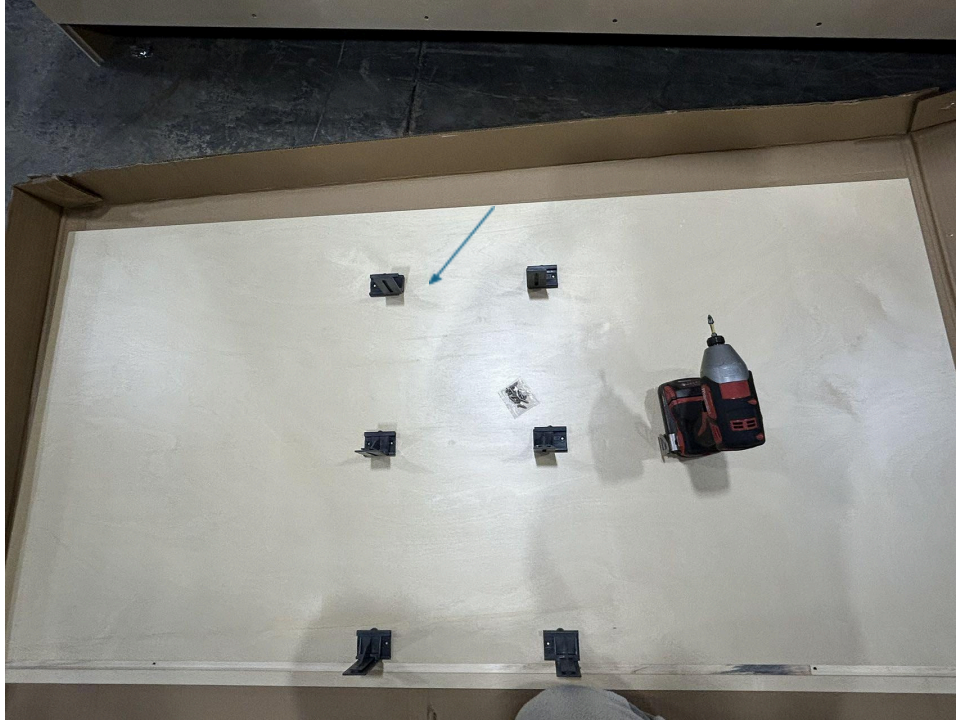

Attach
doors
the
(fake)
fronts.

Attach
panels
Once
secure,
bottom

Part B: Assemble the Structure and Support Components

Step 1: Attach the drawer slide rear brackets to the back panel using the pre-drilled holes.

Step 2: Apply wood glue evenly along the edges of the two side panels, ensuring full coverage.

Step 3: Position the back panel between the two side panels. Secure the back panel by nailing through the side panels into the back, ensuring a tight fit.

Air nail both sides

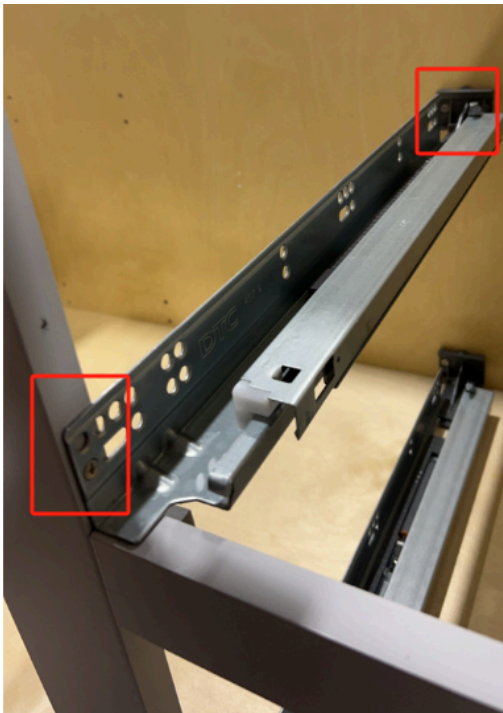

Part C: Install Structural Supports and Hardware

Step 1: Install supporters under the bottom panel, as shown in the example below.

Step 2: Insert the rear slide runner into the corresponding bracket at the back. Then, secure the drawer slide to the pre-drilled holes on the front frame using screws.

Part D: Assemble the Drawers and Install the Doors

Step 1: Assemble the dovetailed drawers, ensuring that all pieces are properly interlocked.

Step 2: Secure the front panel onto each drawer and slide the assembled drawers into their respective openings.

Step 3: Install the doors with proper alignment.
